

# A Root Pattern

*íwest* íwes-t to teach someone, show someone, guide someone t = marker indicating there is an object (the 'someone', can be him, her or they, unless specified)

#### 1. Subject (doer) endings

1	tsel	I	íwest tse
2	chexw	уои	íwest ch
3/3pl	()/-es <sup>1</sup>	s/he, it, they	íwestes
1pl	tset	we	íwest tse
2pl	chap	you folks	íwest cho

əl exw et ap

I teach someone/him/her you teach someone/him/her he/she/they teach someone we teach someone/him/her you folks teach someone

## 2. Object (receiver) endings

1	óx	me	íwesthó
2	óme	you	íwesthó
3/3pl	-/(exw) <sup>2</sup>	him/her, it, them	íwest
1pl	ólxw	US	íwestólx
2pl	óle	you folks	íwestóle

teach, guide me
teach, guide you
teach him/her/them
teach, guide us
teach, guide you folks

#### 3. Combining doer and receiver endings

óx		íwesthóx cháp
óme	cannot take 3	íwesthóme tsel, íwesthóme tset
-	+ Subject endings	íwest tsel, íwestes
ólxw	endings	íwestólxwes
óle	cannot take 3	íwestóle, íwestóle tset

<sup>&</sup>lt;sup>12</sup> Remember, for verbs with an object, or an affected entity (here the 'someone', could he 'he/her/it') there is an ending for the third person who is doing the action, the 'he, she, it, they'. it is -es. iwestes= s/he teaches someone <sup>2</sup> -exw is only used for the third person Object after the -l and -st markers.

# The 'He can't VERB you' Law<sup>3</sup>

In Halq'eméylem, it is impossible to use the regular -**óme** and -**óle** endings (which means you and you folks as the receiver of an action) when the doer in the sentence is he/she/it, or a separate noun. The elders consistently reject or correct all such sentences.

That is, there is a restriction for not allowing a subject in a 3rd person (he/she/ it/they) and an object in a 2<sup>nd</sup> person (you, you folks). Instead of saying "s/he taught you", the Elders say 'you were taught (by him/her/them)'. This pattern is shown below:

### You Were VERBED

To say You were VERBED or You got VERBED in Halq'eméylem, you add an ending -ò:m onto the verb.

iwesthó:m you were taught (by s-o) (= replaces: s/he taught you)

To say You folks were VERBED or You folks got VERBED in Halq'eméylem, you add an **-ólem** ending onto the verb.

*iwestólem* you folks were taught (by s-o) (= replaces: s/he taught you folks)

#### Let's practise this pattern with other verbs from the story!

petámet	l ask someone	
	they ask me	
How do you say	she asks you	

mayt	he helps you folks	
	help me!	
How do you say	we help you	

<sup>3</sup> This rule is adapted from the S'olh Halq'eméylem language course materials.
